

The Ultimate in style

VPOS

Kiosk Series

All about the customer experience

Reduce customer wait time, improve customer service and increase customer retention with a Velocity Point of Service (VPOS) Kiosk.

The VPOS Kiosk series is a specialised range of touch screen kiosks ideal for use in the retail and hospitality industries.

Each unit is application-oriented, designed to suit the needs of your way of operating. Whether you require the kiosk to be wall mounted, free standing or on the counter top, the VPOS Kiosk series provides you with the flexibility to meet your installation requirements.

Designed to last, the VPOS Kiosk series boasts durable industrial strength powder coated chassis' whilst ensuring easy maintenance thanks to the modularised designs.

Furthermore, the VPOS Kiosk series maintains high aesthetic value with an elegant and stylish appearance that will complement any environment. Kiosks can also be customised to include integrated Electronic Payment Devices as well as to match your corporate colours, outer skin design or include your logo.

From information kiosks to self service ordering, you can rely on VPOS Kiosks to meet your needs.
